The Standard AND RIVER PLATE NEWS.

No 3,551—THIRTEENTH YEAR | BUENOS AYRES, THURSDAY MARCH 5 1874 | CIRCULATION, 3000.

MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Saito Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

P. P. MAUA & CO.
M. A. DE FREITAS AMORIM.

Royal Mail Steampacket Company

Twice a Month.

Direct and quickest Route to Europe

TWICE A MONTH.

The Royal Mail Steamer

N E V A,

3000 Tons, 600 Horse-power,
Captain BAX,

Will leave this Port on the 17th of MARCH, 1874, for SOUTHAMPTON,

Calling at Montevideo, Rio Janeiro, Bahia Pernambuco, St. Vincent, and Lisbon,

The Royal Mail Steamer

"L I F F E Y,"

1600 Tons Register—350 Horse Power,
Captain W. GILLIES,

Will leave this Port for ANTWERP, calling at Montevideo, Rio de Janeiro, St. Vincent Lisbon, and Southampton, on the

4th MARCH, 1874.

These steamers will carry Passengers, Mails Specie, Cargo and Parcels for all the above Ports, also through Passengers to Havre or Cherbourg, via Southampton.

FARES.

	1st Class.	2d Class	3d Class
	(And upwards)		
Southampton	£35	£20	£15
Havre or Cherbourg via Southampton	35	20	15
Lisbon	32	20	12
St. Vincent	26	18	8
Fernambuco	24	12	7 6s 8d
Bahia	22	11	6
Rio de Janeiro....	14 & 11	£7 £6	£4
Montevideo	1 12s	16s	

These Steamers are provided with every accommodation for carrying Passengers; to whom Table Wine is given to all Classes.

The First-class Fares by the Steamers, leaving at the end of each month, are all at one rate, viz.:—£35 to Southampton, Havre, or Cherbourg, and £32 to Lisbon.

RETURN TICKETS.

To and from Southampton or Lisbon, available for twelve months; and St. Vincent or Brazil, available for six months, are granted to First-class Passengers, with a deduction of 25 per cent. on Passage Money.

FAMILIES.

A deduction of one-sixth is made in their favor, when paying the higher rates to Lisbon or Southampton, and when the Passage Money is charged in full, is equal to the amount of four adult, cabin passengers.

CARGO, as per mutual agreement.

INSURANCE on Freight can be effected if desired.

The Steam Tenders "Belgrano" or "Flores," will leave the Mole at 3 p.m of every sailing day, taking off Passengers and their Luggage at the usual fares.

The American Mail Steamer for New York and St Thomas, in combination with the above, leaves Rio de Janeiro about the 25th of every month.

For further particulars please apply to the Company's Agents—

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 nuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 25 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Jose M. La Fuente,
Secretary.

American Dentists.
(Formerly of MONTEVIDEO,)
Associated with Don TOMAS COQUET.

108 CALLE MAIPU

Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel, Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrs again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth, comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic inconcess that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,140 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

RODOLFO NEWBERY,
Brothers.

NEW ADVERTISEMENTS

TELL US WHAT CURED YOU?—Tired to death. When the sick die, everybody can tell what they died of. Is it not right, then, that when the sick recover, all the world should know what cured them? And yet thousands are cured of deadly ills by Bristol's Sarsaparilla, whom the public never hear. Cases that are proach the sublimity of miracles—such as that of the boy, James Wyckoff, who was literally wrenched from the jaws of death, when more than half devoured by scrofula—of course find their way into print. Perhaps a hundred such have startled society through the columns of leading journals and medical periodicals. But Bristol's Sarsaparilla has wrought thousands, aye, tens of thousands, of cures, after physicians had shaken their heads and said, "no hope." Everywhere, at all seasons, it is silently working wonders. Would that, for the sake of humanity, the whole truth in relation to its properties were universally known. As a rule, Bristol's Sugar-coated Pills should be used at the same time with the Sarsaparilla. They take off from the system the diseased humors secreted in the latter. cj—m6

EXHIBITION IN CHILE.

The Government of Chile has decreed an international exhibition to be opened at Santiago on Sept. 16th 1875, in which will be received not only native products and manufactures, but also those of Europe or America.

The object in view is to shew the progress made since the last Chilian Exhibition, in 1869, and at the same time stimulate new and improved products, and the general development of trade and industry.

Chile is a new and productive country, requiring only a more extensive and scientific mode of agriculture and mining, a better impulse to industry, and a general adaptation of modern improvements and machinery.

The Exhibition will in this manner foment the agriculture, trade and commerce of Chile, and her relations with all foreign countries.

The Republic of Chile, situate as it is between the Andes and the Pacific, commands a splendid seaboard, indented by numerous ports, so many outlets to the agricultural and mining products for their shipment to foreign customers.

Inland communications are easy and abundant, such as navigable rivers, highroads, and railways. There are in actual traffic 790 miles of railroads, besides 215 in course of construction, most of them belonging to the State. Telegraph lines intersect the whole country, to a length of 1570 miles.

Valparaiso is connected by six steamboat lines with the principal ports of Europe:

P.S.N.C., weekly, by the Straits to Liverpool.

White Star, fortnightly, to Liverpool.

Panama route, weekly, to England.

Bordeaux and Valparaiso line, monthly.

Kosmos line, fortnightly, to Hamburg.

Belgian and Pacific, monthly, to Antwerp.

The commerce of Chile in 1872 shewed an increase of 17 per cent. imports and 24 per cent. exports over previous year, viz.:

	Imports.	Exports.
1871	29,527,151	29,096,412
1872	34,657,928	37,122,460
Increase	$5,130,767	$8,026,048

The geographical situation of Chile, between the 24th and 57th parallels of South latitude, the variety and generally temperate character of its climate, the fertility of soil, the abundance of irrigation by streams descending from the Andes, account for the prolific crops of grain, pastures and fruits, without any manure or artificial aid. Moreover the water-power offers every facility for hydraulic works.

Agriculture has made such progress that all kinds of improved machinery are in use. Flax, linseed and silk-worms are also largely cultivated, and of superior quality. Grain crops are so abundant that a large amount is annually exported to Peru, France and England, in which markets Chilian grain commands a preference. In 1872 Chile raised 504½ million litres of wheat and 63 millions of barley, the value of grain exported amounting to $12,108,698.

Mining is only second to agriculture, Chile producing two-thirds of all the copper of the world. Silver is extracted at Copiapó and Huasco; at other places some gold in found. Coal-beds exist along the sea-board, several being worked on a large scale, while in the far South iron and coal are found to offer a great field for new enterprise In 1872 Chile exported minerals to the value of $17,839,993.

Banking and joint-stock companies have attained more importance in Chile than in most young countries, and given a powerful impetus to trade. The following are some of the principal items of such investments:—

	Nom. cap.	Paid up.
Banks.....	75,000,000	18,400,000
Railways (not Govt.)	15,923,000	15,473,000
Steamers.....	6,946,000	4,051,900
Insurances.....	14,000,000	1,300,000
Saltpetre Cos.	3,700,000	2,734,000
Mining do.	22,200,000	14,660,000
Industrial do.	6,503,000	4,390,000
	$ 144,272,000	61,008,000

Chile has enjoyed profound peace for so many years, and the Chilians are so enterprising and industrious, that joint-stock companies and private institutions of credit or commerce have attained a wonderful growth. Under such auspices it is hoped that the Exhibition of 1875 will be a great success, and give an impetus to national products and manufactures, as well as extend and strengthen the commercial relations with foreign countries.

Rafael Larrain, President.
Domingo Bezanilla, Superintendent.
José Abelardo Nuñez, Secretary.

There will be 5 sections for the various articles, and foreign exhibitors must apply for space before January 1st 1875.

1st. Section. Agricultural products, wool, hides, timber, minerals of all kinds.

2nd. Section. Machinery, models, implements, vehicles, astronomical and other instruments, watches, telegraphs.

3rd. Section. Liquors, comestibles, preserved meat, manufactures of cotton, wool or leather, paper, silks, furniture, hardware, glass, porcelain, marble.

4th Section. Fine arts. Statuary, paintings, engravings, architectural models, plans, hydraulic maps, photographs, coins, medals.

5th Section. Public instruction. Plans of schools, furniture, chemical laboratory, books, gymnastics, free libraries.

Committe for the Argentine Republic—Messrs. Eduardo Oliveira, Blest Gana, Baudrix, Mariano Billinghurst, Mitre-Vedia, Velez.

The above statistics by the Exhibition Commissioners shew that Chile is behind the Argentine Republic in trade, railways and telegraphs, but vastly ahead in agriculture, and with a much evener balance of trade. Reducing Chilian dollars to patacons we find the figures as compared with Minister Dominguez's statement for 1872 to stand thus—

	Imports.	Exports.	Total.
Argentine..	60,000 000	45,000,000	105,000,000
Chilian....	32 058,586	34,338,280	66,396,866

Thus our imports are double those of Chile, our exports 30 per cent higher, and our gross trade 60 per cent in excess; the population in both countries being equal. Moreover we have 84,000 children attending school, against 68,000 in Chile. The actual miles of railway open to traffic are equal, but we have 1,000 miles in course of construction, or four times as much as Chile. As regards telegraphs we have 4,000 miles working, or three times as much as Chile. Comparing exports with population we find each Chilian produces 17$, and each Argentine 22½$. Taxation is equal to 6$ per head in Chile and 9$ in the Argentine Republic. Chilian local administration, such as municipal matters, is far superior to ours, and her credit in England much higher than Argentine.

CANALS AND IRRIGATION

A gentleman named Senillosa, residing in Paris but a Porteño by birth, writes in the *Anales Rurales* on the propriety of canalizing the Rio Negro, the Quequen and other rivers, and making a canal from the Rio de Luxan so as to divert its current into the river of Matanzas, alias Riachuelo of Barracas.

The apparent facility of the last project and the great advantages to be derived from it recommend this scheme much more than the others. There is almost a dead-level from Luxan to the Matanzas valley, and a soil so easy for canal making that any experienced engineer would be able to tell us in 5 minutes how much it would cost. As a natural consequence of such a work it would be necessary to canalize the Riachuelo and abolish the numerous bends between Barracas and the Boca. The Riachuelo with such an accession of water would become of enhanced commercial importance, and form a leading feature in the port of B. Ayres.

The Luxan river is at all seasons of sufficient power to turn several mills; and in calculating the cost of diverting its channel, would have to be included compensation to the present mill owners on its banks. It would probably be necessary to compensate also the various estancieros whose lands are watered by the river between Luxan and its embouchure. It the Legislature refused to pay them, the question would have to go before the Federal Court. The watercourses may be called Government property, so is the Western Railway; but you can no more divert a river than remove a railway station without compensating all the neighbours. Hence a serious difficulty, worse than any to be overcome by engineers, in this part of Mr. Senillosa's project.

As regards the Rio Negro it is most essential to open it to navigation at once, but there is no necessity for canal works. A few months ago the Government steamer ascended to the island of Choelechoel, and another of lighter draught is being built on the Clyde for Messrs. Kincaid, to run up and down from Patagones to the highest inhabited parts of the river. As soon as regular steam communication begins the rich, extensive and beautiful island of Choelechoel will be settled by English or other adventurous colonists.

The Quequen is unfavourable for canalization, because it debouches on a dangerous and exposed coast, practically useless. Its volume of water may be respectable, although we have always regarded it as an 'arroyo,' but its utility for commercial or irrigation purposes seems nil.

It is pleasant to see Argentines in the midst of Paris and its pleasures turn an attentive eye to the undeveloped resources of their native country, and Mr. Senillosa in this manner shews his affectionate remembrance of Buenos Ayres.

PARIS LETTER.

(From Our Own Correspondent.)

Jan. 19.

The first official ball at the Elysée was well attended, as all such are, and certainly the Deputies who voted the 50,000 francs for it, must be difficult to please, if they do not consider the nation has not had the worth of its money, in the magnificence and taste displayed by 'La Marechale.' It cannot be her fault if the expenditure of such a sum do not resucitate Parisian trade. One newspaper appears shocked that dancing was continued after midnight. The general character of the toilettes was extreme simplicity; white tulle with abundance of satin trimming formed the favourite materials, and the head dresses were elegantly plain, but rich; a flower, surrounded with diamonds. The Princess Souvarow was the most richly attired of all the ladies; she had a toilette of white satin, and wore at least diamonds valued at one million of francs. The Duchess de Chartres was in demi-mourning, and wore a robe in black and maroon. The Duchess of Magenta personally called on the Orleanist princes and princesses to invite them to the ball.

The Russians in Paris, a very numerous colony, are very gay just now; it is not only their Christmas, twelve days after the ordinary date, but they are merry at the coming rejoicings in St. Petersburg. It is their habit before going to dinner to repair to a separate room to enjoy bitters and 'bonne bocubes;' this overture to the dinner, called 'zakouski,' serves as an introduction of the guests to one another, so that before going to table acquaintances are made, and every one is at home from the commencement of the repast, instead of, as is frequently the case, only at its close—that is, over the walnuts and wine.

Celebrities have a weakness for favourite dishes: thus, Thiers is as fond of coffee as Voltaire; Rossini had a partiality for maccaroni, when prepared by his own hands—as he often did to surprise his guests: Schiller loved ham, and Napoleon I. roast chicken; Napoleon III. delighted in a mutton stew, and Lessing was as happy as a king over a dish of lentils; Charles XII. doated on bread and butter, and Tasso on preserved fruits and jam. Marshal MacMahon's gastronomic leaning is for the 'birds of Venus,' less poetically known as pigeons.

Among the multitudinous 'articles de Paris,' figure the manufacture of camelias and dahlias, by cutting carrots and turnips into the form of those flowers, and painting them. However, it is essential to keep probability in view, and to accomplish this it is necessary to mount those artificial flowers on a green stalk; such a stalk is difficult to find in winter; the price given for a bundle of green stems being high, has led to numerous robberies of gardens for anything suitably green. There are so many persons out of employment that the temptation is great to steal. It is also very extraordinary the number of advertisements which appear addressed to all who desire to make a princely income in a short time, by selling an article of world wide &c.

France counts 7000 individuals in her population who are afflicted with stammering—a disease incurable only when neglected. Men are more afflicted with this calamity than women, many can draw their own conjectures, but gallantry forbids to explain the cause; cold increases stammering, humid and warm weather is more favorable to curing the infirmity. Persons who have a lymphatic temperament are more subject to stammering than others, and the evil is increased where intelligence is not great.

Rabbit breeding promises to be profitable in point of fur as well as flesh: France consumes 300 millions of rabbits annually, whose fur is valued at ten sous per skin; the grey-blue rabbit is at present much sought after for its fur—a good skin selling as high as two francs.

Visitor to house porter—"Is Monsieur le Vicomte —— within?" Porter—"I cannot say; you can go up and try, as we are no longer on speaking terms."

"I wish a decoration." "Which?" inquired the shopman. "No matter, any one will do, as I desire to go into society," answered the purchaser.

The two-headed negress declined to afford science the satisfactory proof that they constituted a monstrosity, so the French, as usual ingenious, alleged they were impostors, and called upon the Minister of Police to investigate the matter, which he did, by directing the Chief Medical Officer of health to wait upon the ladies and to request they would select a doctor on their side and fix an hour for an interview. The doctors have sent in their report, and the Academy of Science promises an interesting debate on the subject of deformities in general. A subscription breakfast was given in honor of the darkies of the Grand Hotel, where the ladies performed some rare feats; one eat when the other drank; one patronized a sweet, the other a bitter; one sang a song, while the sister, or half, returned thanks, and both signed their names in albums belonging to such visitor as desired.

The question has been raised, ought mourning to be worn for persons civilly buried? The Materialists pure say no.

The markets of Paris are at this moment supplied with a number of foxes, to be purchased as food, and for the sum of 5 francs each. Foxes are not hunted in France, and no higher estimation is entertained of them than is for rats or kindred Vermin. To make the flesh of renard palatable, the animal is to hang for six days, without becoming high; then it is to be skinned, placed in vinegar with aromatic herbs or spices, for a fortnight and finally cooked as venison, which it is alleged it very much resembles. Parisians are indebted to Bismarck for many forced additions to the table; they have never completely recovered their omniverous habits of the winter of 1870—71.

A worthy John Gilpin has died, who made his fortune from sugar-plums and candles—with the same hands for both, and often in the same pans. The explanation is, he made his 'bon bons' from honey, and with the residue wax, he fabricated candles.

A train started for Orleans a few days ago, and was 20 miles on its journey, when it was found the third class passengers had been all forgotten in the waiting room.

Doctor to patient: 'the best proof that you are better is, that you now call me simply doctor, instead of the saviour of your life.'

WOOL REVIEW.

ANNUAL REPORT.

London, Feb. 1, 1874.

In their review of the wool trade for 1873, Messrs. C. Balme and Co. state that the current of events during the year has included a variety of circumstances and influences which have more or less materially affected the prosperity of the woollen industry. The position of the wool market, however, has shown considerable stability, and notwithstanding the occurrence of a serious crisis in Germany—a lengthened period of political suspense, followed by a change of Government in France—a long continuance of depression in the trade of the United States, culminating in a panic—more recently, financial stringency at home, and a continuation of the general disturbance produced by the combinations of labour, direct and indirect—the value of Colonial wool has, on the whole, during a greater part of the season, fairly maintained the higher average resulting from the remarkable development of industrial activity which succeeded the French war.

The productive power during the two years following that event was enormously increased by large erections of new machinery, and being met by no corresponding augmentation in the growth of the raw material, the relations of supply and demand underwent a modification which has survived, to some extent, the prosperous state of trade producing it; thus accounting in a great measure for the stability and buoyancy of the staple under changed and less favorable conditions.

That the combined or successive influence, however, of the many adverse circumstances enumerated has slowly but surely made itself felt, the export returns of the Board of Trade, and the more recent suspension of foreign support at the London sales give ample proof; while the smart reaction in quotations at the last series of the year has at length brought the value of the raw material into greater harmony with the stationary or contracting condition of business in most departments of the manufacturing trade.

During the entire twelve months the position of the woollen industry, as far as the British manufacturers are concerned, has been more or less unsatisfactory; the prices obtainable for yarns and goods being too low, in the face of the increased cost of manufacture, and high rates for the raw material, to admit of a fair margin of profit, our market has consequently been more than usually sensitive to the influence of the competition for export, and the fluctuations recorded have closely followed the ebb and flow of demand from Continental consumers. This was in no instance more marked than during the final auctions, when the withdrawal of foreign support caused an immediate and important decline in value.

The imports for the twelve months are stated at 705,669 bales, against 661,670 bales for 1872; but the excess must not be necessarily regarded as the measure of the increase in production, the shipments to America from the colonies having fallen short of those for 1872 by about 11,000 bales. A comparison, moreover, for this purpose, will be modified by shipments direct to the Continent, as well as by transhipments thence and from America to this market, of which we possess no exact return. The shipments from the ports of the River Plate likewise testify to the impetus recently given to the growth of wool in that quarter.

In regard to future prospects, there perhaps has seldom existed a situation so plainly suggesting the strictest reserve in the adoption of any decided opinion.

It is manifestly impossible to calculate with any accuracy how far the crises which have occurred in the United States and in Germany have spent their force, or what the extent or nature of their reaction on trade and industry are likely to prove. As, on the one hand, it may be urged that the worst aspects of these difficulties have been surmounted, so it may also be inferred that as their influence has been slow to make itself felt, a recovery from their effects may possibly prove equally tardy. But while the present condition of many branches of the trade is at best only stationary, there can be no question whatever of the tendency, under the stimulus of the recent high level of prices, to a considerable increase in production of the raw material; in particular districts this may no doubt be, to some extent, counteracted by local causes, but there is every reason for anticipating an aggregate augmentation of material dimensions. The most favorable consideration in relation to the future exists in the apparent vigor and soundness of the French trade—a very important item in any forecast in connection with wool—though frequently a most capricious source of support. It may be that the depreciation in particular classes of wool—possibly Capes and combing merinos—has been so far disproportionate as to place them in a relatively safer position than some other descriptions; but, on the whole, it must be contessed that the immediate out-look, at all events, is not re-assuring.

EDITOR'S TABLE.

Yesterday was dull and dreary, "on ne pouvait plus". No steamers in; nothing new out; and the "gobe-mouches" reduced to talking about the weather and the women, two inexhaustible topics, when every thing useful fails. The excitement about the election scrutiny has subsided, and until the 12th prox., when the election of the Presidential Electors will take place, we may look for a quiet life. The Neva is expected in on 8th, but our telegrams of yesterday have taken away all interest in her appearance. Letters are now reduced to secondary importance. The ciphers of a single telegram are worth a mail bag full of them: as for home newspapers, their occupation's almost gone here.

The Royal Mail Company's steamer Liffey sailed yesterday for home. Although she took few passengers there was a tolerable mole-head demonstration. Yet even this time-honoured custom of "seeing friends off" is falling into contempt. The bogus tears shed on these occasions are seen through, and the parting cheers on the mole-head have too often a "glad-to-be-rid-of-you" ring to uninterested ears. "Vanitas vanitatis!" Nevertheless we wish the Liffey and her passengers "bon voyage".

The one-horse cars on the City of Buenos Ayres Tramway line are finally done up, for good and all. The driver could not attend to the money and the 'mancarron' at the same time; 'hinc ill lachrim.' The same company has recently received twelve magnificent new cars for the Plaza Caridad line. They are the finest yet imported into the country, and are now being put together.

"The late Sir Henry Holland was one day engaged in a hot argument with Bobus Smith, an ex-Advocate General, touching the merits of their respective professions. 'You will admit,' said Holland, 'that *your* profession does not make angels of men.' 'No,' retorted Bobus; 'there you have the best of it. *Yours* certainly gives them the best chance.'"

A General Meeting of the Glee Club of Buenos Ayres is called for Tuesday next the 10th inst, at 7½ p.m. We understand that matters of great importance will be brought before the meeting, and members of all classes are requested to attend.

Mr. Bagley, the great Hesperidina Man, has made a new hit, in the shape of a Double distilled preparation of Rum, suitable for the sick room, the bath and the toilet table; it is also said to be a tip-top remedy in cases of headache, neuralgia, &c. If at all comparable with the famous Hesperidina the new remedy will carry all before it.

More masked balls will take place at the various theatres on Saturday and Sunday next. Parties attending the 'hops' at the Variedades Theatre should make it a point to patronize the new Cafe Anglais on the other side of the street, for refreshments, supper etc. The proprietor is an old employee of the great restaurant of the same name in Paris; the establishment is beautifully fitted up; lots of light, first-rate 'cuisine' and attendance, and moderate prices for everything supplied. What more can a hungry public desire. Monthly 'pensions' at moderate rates are given by this new establishment.

Shocking accounts of the commercial and monetary state of Paysandu are given in the Oriental papers. The place seems to be thoroughly done up for the moment; no money, no credit, nothing. The monetary squeeze in the sister city is reacting on the departments. Everything now depends on the Jones Loan. If that is not launched, Immortal Smash all over the Republic must be the inevitable result.

The Royal Mail Steamer Neva is expected at Montevidean on or about the 8th inst.

The last number of the *Anales de Agricultura* contains a frontispiece of 'Mountwell' a celebrated Trakenir stallion belonging to Dn Juan Molina. There are also articles about gratting, and various other subjects interesting to the agricultural mind.

The telegrams from Europe published by some of our native colleagues yesterday mention the resignation of 'Lord Gladstone' and the death of Baron Rothschild. Both pieces of intelligence require a good deal of confirmation, particularly the former.

The Montevideans have screwed up their courage to the sticking place, and opened their port and ports to all vessels from Argentine ports, with the solitary exception of BUENOS AYRES. This is the play of Hamlet with the part of Hamlet left out with a vengeance.

The official result of the scrutiny of votes given on 1st Feb. for Deputies to Congress was not known up to a late hour yesterday. The scrutineers, after 20 hours' consecutive work on Monday and Tuesday, very naturally fell sound asleep on the morning of the latter. Even editors are not called on to remain awake so long at a stretch.

A duel between two 'muy conocidos members of society was fought, or is said to have been fought, on Tuesday. Some accounts say that one of the principals was scratched, others that nobody was hurt and honor was satisfied. In these practical days honor, like conscience, is very easily satisfied.

Japanese Recipes.—To make hens lay all through winter: feed them on dry hemp seed; the finer the quality the better the result. To fatten poultry: give them powdered charcoal with their food; the flesh becomes beautifully white and rich. To keep meat fresh in summer: put it in a clean porcelain bowl, and pour very hot water over it, completely to cover it; then pour oil on the water; the air is quite excluded and the meat preserved.

We hear from a subscriber at Rincon de Noario that that hitherto quiet district has lately been alarmed by the appearance of bands of mauraders who have been robbing and maltreating both sexes indiscriminately in that district. The active Juez de Paz, Senor Piñero, is doing all he can to capture the culprits, and is scouring the country at the head of 20 men in quest of them.

The 12th of April is the day named for electing 54 free and enlightened citizens as Electors to name the next President of the Republic. After that date we may hope to settle down in peace and quietness for a few years, free from electioneering troubles.

The tubes of an engine on the Southern Railway burst on Tuesday while it was on a turning table at Barracas. The stoker was frightfully scalded, but no one else suffered any injury.

The action at law taken in the English Law Courts by Mr. Revy, C.E., against Mr. Bateman, C.E., for defamation, libel, &c. will soon come on. Commissioners duly appointed to collect evidence in the case have arrived in the Liffey, and the case, we hear, is likely to be 'ruidosa.' Mr. Revy has recently published a work in London on the Port proposed to be made here by his opponent. It goes to show that the proposed works are not feasible. This was to be expected. Nevertheless the book has created a great interest in British engineering circles.

A St. Joseph, Mo., man advertises; 'Bowie-knives sharpened, and warranted to cut hair.'

A meteorological observatory is about to be started at Salta, and we understand that the necessary instruments have already arrived from England.

A newly-married couple found themselves in a railway carriage with only one fellow-passenger, who appeared to sleep profoundly. Soon the lady commenced to call her young husband all the endearing names that natural history can supply. The traveller roused up, and begged the lady to call her partner a 'Noah's ark' at once, and allow him to sleep quietly.

The illumination of the new works of the Mutual Gas Company at Barracas on Tuesday night was postponed in consequence of the bad weather.

A Lacrosse tramway car was stopped a few nights since by a band of political rowdies who insisted on the guard, passengers and driver giving a cheer for their candidate. The occupants of the car, after a brief debate, moved, seconded and carried that "discretion was the better part of valour". The cheer was given, and even "one cheer more" as the car drove off.

An Iowa matron occupies the position of mother-in-law to sixteen abject men. And people talk of slavery away off in Cuba!

The last report of the Bank of San Juan shows a favourable result. The accounts show a profit of 54,000 pats. on a paid up capital of 350,000 pats. The *Voz de Cuyo* complains that the local Government does not pay its subscription, and threatens to stop sending the paper to it, if the account is not paid. The Loretto church at Mendoza has been burned down, but no lives were lost.

Mr. Daws, the librarian, delivered 'Bow Bells' and the 'London Journal' to his numerous subscribers yesterday. He has on sale 'suelto' copies of all the English illustrated and weekly papers.

Calle Florida was fairly blocked up yesterday by carts full of cabbages, carrots, cauliflowers and samples of the whole vegetable Kingdom, all bound for the Aduana Chica, or new market, in Calle Florida. As the 'solemn inauguration' of the market is not to take place till Sunday next, the vegetables above referred to will be in a delightful state of freshness by the time the business of the market opens on Monday morning next.

An old Troy river man says he is disgusted to hear people nowadays talk of low water in the Hudson. He remarks that he can remember well, years ago, when the river was low. He asseverates that at one time all the passengers on the New York boat had to close their windows during the entire passage down, because the steamer's wheels raised such a dust.

The Picardie sails for the Mediterranean to-day, Capitania open up to the usual hour.

Small-pox has appeared in the neighbourhood of Vecino, and the victims already number 50. A doctor has been sent down to the afflicted district.

The steamer Patagones sails for the far South to-day. Letters can be posted up to S½ o'clock a m. at the Capitania.

A bachelor editor in Iowa, who has a pretty unmarried sister, wrote to one in Michigan similarly situated: "How'll you trade?"

The Navy Department is bestirring itself on the look out for crews to man the new ironclads shortly expected from England. Special drill is required to manage these 'tin kettles,' as English officers of the good old school describe them. A colleague states that a North American officer is to be contracted for, to drill the crews of the iron clads. First catch your crew.

Mr. Servandi Ximenez is the empresario of the proposed new line of tramway between Belgrano and the new town of Saavedra.

Mr. Forckel, Head Gardiner to the new "Jardin de Aclimatacion", has sent in his first report to the Chief of the Agricultural Department, Don E. Oldendorff. Mr. F. is now engaged in drawing out a plan of the proposed Gardeu, which will be 5 square squares in extent, and comprise a section for pleasure, Botany, Arboriculture and Cereals. There will be a lake in the pleasure garden. Mr. Forckel also proposes the formation of a Horticultural Library—a right good idea. Mr. Forckel seems the right man in the right place.

Next Sunday another balloon ascent will take place in Rosario; and the æronaut announces the cruel spectacle of the descent of a dog attached to a parachute. Shame!

When Handel visited Haarlem he at once hunted up its famous organ. He gained admittance, and was playing upon it with all his might, when the organist entered the building. The man stood awe-struck; he was a good player himself, but he had never heard such music before. "Who is there?" he cried. "If it is not an angel, it must be Handel!" When he discovered that it was the great musician he was still more mystified. "But how is this? you have done impossible things," said he; 'no ten fingers on earth can play the passages you have given; human hands couldn't control all the keys and stops!"—'I know it,' said Handel, coolly, 'and for that reason I was forced to strike some notes with the end of my nose."

Why is buying a lot of goods cheap like the profit obtained from the retail liquor traffic? Answer—Because it's a bar-gain.

Somebody calls Carlyle the swarthiest mind in the world, and thinks that it has been his fate to unite the world with unfaith.

Kerosene is the best article ever discovered to clean rust from grates and fire-irons.

ON 'CHANGE.

March 4th, 1874.

Ounces	400
Sovs	12½
Pats	25
Nat. Bonds	80
Cedulas	86

The stock market at one period of the day showed signs of improvement, and it was rumoured amongst the brokers that some outsiders were buying up C dulas, but the stock is so freely offered, and the general money market in such a critical state, that it would require abler hands than those around the ring to stem the current.

There was much said on 'Change to-day about the new rule of the National Bank respecting renewals by the bank, upon which the Bank henceforward declines to pay brokerage. The Provincial Bank allows brokerage on bills having 15 days to run, whilst the National Bank only pays commission on bills having 30 days to run.

There was a rumour on 'Change to-day to the effect that two vessels with cargoes of wool and tallow had left this port without paying the duties. We are ignorant of the particulars, although the names of the ships were mentioned on 'Change

The Liffey only took £80,000 sterling in gold spite of all the rumours of heavy shipments. Gold goes down, however, very freely to Montevideo, and the drain is beginning to be spoken of.

It was stated to-day that one of the houses mentioned last Saturday as failed showed to-day a surplus of 42,000 pats.

The sales to day were—

Cedulas		
For cash	1,200	84⅝
do	1,200	84½
do	5,000	84⅝
do	10,000	84½
do	6,200	84⅝
Saturday	8,000	84½
End month	20,000	85⅛
do	140,000	85
do	25,000	84⅞
do	30,000	85
do	50,000	85⅛
do	50 000	85⅛
do	60,000	85⅛
do	10,000	85⅛
April 30th	10,000	85⅛
do	10,000	85⅛
March 13	20,000	85

National Bank shares are very flat, 50 sold at 99.

In the liquidation—

70,000 for end month 85½.

Market closed sellers.

The meeting of the creditors of Don Bernardo Delfino was held last night. The matter was greatly spoken of and creditors ask for more particulars than the books supply. Mr. Delfino owing to ill health was unable to attend. The losses which produced the failure are put down so:—

Loss in exports	406,335
Loss in imports	12,000
Loss in almacen	80,000
The creditors in Europe represent	290,598
" " in Plaza "	432,901

The Provincial Bank stands as a privileged creditor for $f5?,900 pats and 592,000 m|c, and the Custom House for $f10,000. Amongst the assets are claims against—

Paraguayan Government for $f35,538

Preserved meat Abate system 126,349 m|c.

Pozo Artesiano 90,502 do.

The question as to the Provincial Bank privilege, over, not only Mortgage creditors, but over the Banco Hipotecario will now be tried in the case of the failure of Amespil. All merchants are of accord that the Provincial Bank has in such case no privilege whatever; nevertheless one of the first lawyers of Buenos Ayres says that if the debt to the Bank is anterior to the Mortgage; the Bank has a privilege and that so it has been decided in full court by all the judges.

There was a rumour on 'Change this afternoon that Caraballo was again on the move, and likely to give trouble in the Banda Oriental or Entre Rios.

Exchange ruled to-day at 48¾ and 49. On Antwerp, 6.19-20. On Montevideo bills passed at ⅛ premium.

Discount brokers report everything very difficult, save for first class paper, which is scarce in the market, and can be done as low as 10 per cent.; but all that description of paper goes into the Provincial Bank. Even trade pagares are extremely difficult, confidence being much disturbed by the recent failures.

The John Elder was looked for to-day, but did not enter. It is to be supposed that some steamer will come up to-night from Montevideo. The consular papers for Liffey gave one case of cholera.

It is really deserving of note how, spite of crisis etc., some stocks keep up. To day 73 shares Popular Argentina at 25 premium ex div.

In the produce markets everything rules very dull as regards wool—small arrivals, state of Plaza muddy, and news from Europe unfavorable. Wheat and hides, however, rule brisk; also maize.

The mail steamer Liffey sailed to day. Among her passengers was Mr. Patrick Bearne, an Irish sheepfarmer, who, after eleven years' absence, returns to his native land with £2 00 stg. in his pocket. We mention this case as an undeniable refutation of the statement that the days are gone when an Irishman without a penny could go out to the camp and make a fortune. For a man in Bearne's walk in life £2500 is a fortune and his presence in Ireland will induce many of his countrymen to come out to the Plate and try sheepfarming. There are few countries in the world to day where a poor, honest, industrious and sober man can do better than in the Plate. We know of another countryman here who is now in treaty to purchase his landlord's property in Ireland, at a cash figure that cannot be obtained from any one at home. This shows the growing wealth of the Irish sheepfarming class in the Plate, perhaps as a class the richest and least encumbered in the Plate to day.

The wool export tables of Messrs. Scharffenorth and Sattler, as published in this morning's STANDARD, have attracted notice, since they show how much more active the wool export has been this year than last. We have exported from Nov. 1st to 1st March 106,676 bales against 71260 same time last year. We can only look forward to a few more months' active wool trade, after that our export generally dwindles to the scrapings of barracas, when the business may be regarded as over. The stock in market is small compared with other years, but barraqueros think that there is still outside, say, from 800,000 to one million arrobas, which, according to our estimate, must be under the mark; and taking the last two years' wool export as an index of the present year we make the following estimate of our export for 1874, which we estimate at 223,000 bales—

	Bales
January	31,461
February	3,360
March	28,000
April	25,000
May	18,000
June	16 0 0
July	8,000
August	6,500
September	5,500
October	8,500
November	24,000
December	26,000
	223,261

We have news from the South of great importance. Since the passage of the law offering a reward for the planting of Eucalyptus trees there has been a move in that direction; on nearly all the large estancias a greater or less number of that mysterious and valuable tree is planted. We hear in the far South of a contract made by a well-known English firm of this plaza, who has concluded a contract with certain medianeros &c for the delivery to him of 500,000 Eucalyptus trees 3 years old, all growing on the estancia and healthy trees at the time of delivery. Another estanciero, a native capitalist, and formerly a leading almacenero, has made a like contract for 50,000 Eucalyptus trees at 4 reales each; another capitalist has contracted for the planting and growing of 100,000 Eucalyptus at the same price; these are true signs of the times and we look forward to the greatest success for the Eucalyptus, it is said to poison the black ant. Every estanciero in the country who has land of his own ought to contract with his medianero for the rearing of say one or two thousand trees at each puesto, in 5 years hence the whole face of the country would be changed.

The sale of another immense tract of country, some 25 square leagues, in the province of Santa Fe, is spoken of. The price is reserved; the purchaser a Liverpool merchant.

It is the general opinion in this market that this year will be the last of Bank fiscal privileges. They disturb trade, and are now so inconvenient that they must be abolished. At the next Congress we hear that the matter will be fully brought up. Some idea of the injurious effect of these privileges can be gathered from the fact that to-day a discount broker reported that on presenting certain first-class bills for discount, the discountor informed him that he was satisfied with the signature and would discount all the paper offered on the broker bringing him a certificate that the acceptors owed nothing to the Provincial Bank, nothing to the Mortgage Bank, nothing to the National Bank—a stiff business enough for the broker.

Our colleague, the *Tribuna*, publishes the sale of one and a-half leagues of estancia land, in the partido of Bragado, for the sum of $700,000 m|c. This price seems very cheap according to the prices lately going for land out there.

It was very generally said on 'Change to-day that the opening of the port of Montevideo rests more with the doctors of Buenos Ayres than the Oriental Government. That as soon as the Board of Health of Buenos Ayres certifies that there is no more cholera in this city, so soon will the Montevidean authorities open their port to Buenos Ayres.

On Friday, it seems, the gas question is to be definitly settled at the Provincial Government House; the only possible settlement which shareholders can countenance is the payment of the account. As regards the Mutual Gas Company, the work goes on apace, but it is indeed questionable if it will suit the new company to supply the Municipality, after what has occurred with the old Co. £64,000 sterling is a very large gas bill for any one company to remain out of. The shares of the old Gas Company are somewhat more enquired for, and we hear that some private sales have been made as high as $1800 m|c. per share.

Mr. Silveyra's advices from London are most important. The Saladero guano has been sold in England as high as £8 per ton. Mr. Iglesias writes that he can dispose of 15,000 tons per annum, so the question resolves itself into one of production. Can Mr. Silveyra produce the quantity at a price that will leave a profit? On speaking to Mr. S. on this subject he assures us that at his saladero he can supply 6,000 tons without the least trouble.

The sale of a cargo of salted hides at Zarate is reported—from 8000 to 9000 hides saladero, Lanus and Ferrer, for 51½ rls. This tops the market. We may add they are bought by the same English house that has also bought the cheapest hides this season.

We extract the following from Mr. Natham's report on the Brazilian market. There are some few items here not generally known in this market—

"Predial.—Formerly 'Empreza Predial' or Building Company. The great necessity of further capital to carry on its increased business, together with the favorable results during its short existence and the solidity of its operations, induced Government to approve a modification of its statutes on the 1st February last; constituting it a 'Bank' with the power to issue Letras Hypothecarias, or Territorial Bills, bearing the guarantee of the mortgages, Capital and Reserve fund of the Bank; these notes are transferable to bearer, can be negotiated 'anywhere,' the smallest issue not to be less than 100$ or at 26d £10.16.8 bearing annual interest of 6 per cent, payable in Rio, 30 April and 31 October of each year, no fixed period for their amortization, but are subject to annual drawings or 'Sorteo' in January and June of each year—the first five numbers drawn, having possibly in addition, a premium in cash; all interest to cease on such numbers drawn, from the date payment is announced. We have the best opinion of this establishment, and anticipate a grand success; it is the first one of its kind here, but well known and approved of in all other countries. For further and full guarantee of all its transactions Government has its own Fiscal Agent to overlook all operations.

"Deutsch Brasilianische Bank.—Commenced operations 1st November last. The Bank operated largely, however, proviously, for the purpose of introducing its Capital. With the enlarged ideas of its Directory in Hamburg, the long experience and thorough knowledge of business and mercantile houses here, of its manager, we feel convinced will rank very high and figure considerably; more particularly as its connections in England, France, Germany, Portugal and the United States are of the highest standing.

"The paid up capital is £5?0,000. Capital £1.250,000 with power to raise it to any figure, the business may justify; the shares are all held in Germany; its Head Office is in Hamburg.

"The Bank is now in full swing and has its agencies established along the coast.

"Thus far, its operations have been most important, and the opportunity chosen for its inauguration so propitious, that same must have been most lucrative.

"Brazilienne Francaise.—Do a quiet and no doubt a good business.

"Having thus far no report of it's working, we can form no idea of the result of its operations. The shares are however at a heavy discount without buyers, but this circumstance must not, in any way, affect the credit of this establishment, but only, prove the dull state of our share market."

"LA ESTRELLA"

ARGENTINE COMPANY FOR INSURANCE AGAINST FIRE,
AT FIXED PREMIUM.

CAPITAL, ... 2,000,000 HARD DOLLARS

Sanctioned by Decree of National Government, October 24th, 1865. Also by the Provincial Executive, dated 23rd of same Month and Year.]

MANAGING COMMITTEE.

PRESIDENT:
Don Enrique Ochoa.
VICE-PRESIDENT:
DIRECTORS:
Señor Don Tomas Armstrong.
" " George Temperley.
" " Francisco Bustamante.
" " Henry N. Hart.
" " Alex. Sivori.
DIRECTOR-GENERAL:
Don Francisco F. Moreno.
INSPECTOR
Guillermo Schindler.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no other obligation than the payment of the stipulate Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy there is one of particular advantage to Mortgage Creditors.

The company offers the following Rewards:—

$f.40 To the first Hose ready to lend assistance
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes

Which run to the Fire of any Edifice or Property sured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal boundary.

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 112½ FLORIDA—Up stairs—or at any of the Country Agents.

MARITIME DEPARTMENT.

By virtue of Decrees of the 2d of April and 9th of June last, of both Provincial and National Governments, and also having been duly registered in the Public Archives, this Company has been authorised to issue Maritime Policies, in accordance with the laws and regulations, in such case made and provided.

For further particulars apply to the Office of 11 Florida, up stairs

POSITION OF THE COMPANY,
31st MAY, 1872.

SUBSCRIBED CAPITAL:
Hard Dollars, 4,391,016:38.

No. of Policies.. 4,243.—Securities $f.1792470

It being an admitted fact, that "Money make money," the object of LA BIENHECHORA could not be better, since it opens a vast Saving Bank for the surplus or savings of the Public and by the proper employment of these small gains, a moderate capital, or even annuity, man be secured in a short time. By this means a provident, though helpless, family can husband the mall means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose own investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

Subscribers enrolled and all necessary information given at the Head Offices of the Company, 112½ (altos) Calle Florida, Buono Ayre

BETT'S CAPULES PATENT

Tov forpent infringements, notice is hereby given, that

BETT'S "NAME" is on every Capsule he makes for the principal Merchants in England and France,

Thus enabling vendor, purchaser, and consumer not only to identify the genuineness of the capsule, but likewise the contents of the vessel to which it is applied.

The LORD CHANCELLOR, in his judgment said—"That the capsules are not used merely for the purpose of the ornament, but that they are serviceable in protecting the wine from injury, and insurding its genuineness."

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very lrge amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum rom Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds wenty-five thousand dollars currency, a thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vebetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures *uniformity of excellence*, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of.

Salt Rheum, Tetter, Scald Head.
Syphilis, or Venereal Disease.
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever.
& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will be found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla they carry off large quantities of morbific or diseased matter not free in the system by the Sarsaparilla, and in this way facilitate the return to mal fnuctional operations. —c— 46

Indestructible Paint

It is specially adapted for all kinds of out doo work.
It resists equally damp and corrosion.
It is used in Her Majesty's Dock-yards.
It is a strong Disinfectant.
It is extremely durable and not liable to chirp.
It does not blister with heat.
It is supplied in Iron Cans, ready mixed for use.
It can be applied by ordinary unskilled hands.
TWO coats of this paint are equal to FOUR of ordinary paint.
1 cwt. of Indestructible Paint contains 10 gallons.
1 cwt. of "Ordinary Paint," do 5 gallons.

British Hospital

Chairman.
Mr. JOHN DRYSDALE, Calle Moreno 66
Hon. Treasurer.
Mr. URBAN SMITH, Calle Rivadavia 9½.
Hon. Secretary.
Mr. R. I. RUNCIMAN, 110 Calle Piedad.

Extracts from the Code adopted by a General Meeting of Subscribers held on the 11th April 1872,
XVII. That Subscribers shall have the privilege of recommending one In-patient annually for every $50ft. of annual subscription, such patient to be free or all charges, and that a patient so recommended shall be admitted on presentation of the letter of admission furnished to such Subscribers by the Secretary to the Hospital.
Collectors shall also be entitled to a similar letter of admission for each $f.50 collected by them in smaller sums.
XVIII. That all accidents, cases of poisoning and other urgent cases be admitted at any time without an official order at the discretion of the Medical Officer or House Surgeon
XIX. That an order from the British Consul, the Chaplains serving on the Committee, or the Visiting Medical Officers, guaranteeing the poverty of the applicant, be sufficient to procure him admission, subject to such arrangements as the Committee from time to time may direct.
XX. That, so far as the Hospital accomodation shall permit, other patients be received on payment of such a daily remunerative rate as shall be fixed by the Committee.
N.B.—Application for Orders of admission may be made to Mr. John Drysdale, No. 66 Calle Moreno.

ROWLAND'S MACASSAR OIL prevents the hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft pliable, and glossy. Price 3s. 6d., 7s., 10s 6ds equal to four small, and 21s. per bottle.
IMPORTANT CAUTION—Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each bottle has a glass stopper instead of the cork as formerly. All with the cork are spurious imitations.
ROWLAND'S KALYDOR removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the skin. During the heat and dust of summer especially, and in cases of sunburns and stings of insects, it is of the utmost use. Price 4s. 6d. and 8s 6d. per bottle. Ask for "Rowland's Kalydor."
ROWLAND'S ODONTO, or Pearl Dentrifice, preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 9d. per box. Ask for "Rowland's Odonto."
ROWLAND'S ESSENCE of TYRE never fails to produce immediately a perfect change in red or grey hair, whiskers, eyebrows, &c., to a beautiful glossy and permanent brown or black, which colour remains so durable, that neither washing nor perspiration can remove it. Price 4s., 7s, 6d., and 10s. 6d, per bottle.
All these articles have been used and justly appreciated by all the Sove eigns and Courts of Europe, the Pope of Rome, and the aristocracy of the world, during the last 70 years, being of inestimable value to those who have once used them. They are sold by all chemists, perfumers, and bazaars throughout India, Australia, the Colonies, and South America.
A. ROWLAND & SONS, 20 Hatton-gardon Lpndon, Proprietors. cj..n8
